

THE NEGRO RIOT AT ALEXANDRIA.

Northern correspondents say that, on the reassembling of Congress, a searching examination will be made into the causes of the Alexandria negro riot. It is said that the Radicals in the House intend to make use of this and similar disturbances at the South upon which to urge anew their theory that the South is not yet in a condition for representation. General Augur has forbidden the surrender to the civil authorities of those persons arrested in Alexandria during the riot.
